

51 Numeral-Word Match

Materials

- Film container of any type
- Adhesive label: Numeral-Word Match
- Numerals and Number Words reproducible (see page 132)

Directions

1. Cut the reproducible into individual numerals and number words and place them in the container.
2. Have a child empty the container, match the numeral to its number word, and record the matches on a sheet of paper.

..... *Consider This:*

- a. Do a similar activity early in the school year to help classmates learn each other's names. Using the Blank Grid reproducible (see page 122), write each child's first and last name on the grid, cut out all the names, and place them in a film container. Have a child empty the container, match the first and last names, and copy them onto a sheet of paper.
- b. Use the Blank Grid reproducible for matching colors to color words or months to their abbreviations.

Numerals and Number Words (page 50)

0	1	2	3
4	5	6	7
8	9	10	zero
one	two	three	four
five	six	seven	eight
nine	ten		

Blank Grid (pages 37 & 48)
