

SECTION VI: TRANSPORTING STUDENTS WITH SPECIAL NEEDS

M. SPECIAL TRANSPORTATION SERVICES

Whenever special education students cannot be transported on the regular school bus, the I.E.P. must address special transportation as a "related service," and a Special Needs Bus Application and Transportation Request Form (See Appendix) must be completed and sent to the Transportation Department. The Special Education Department and/or appropriate schools must allow sufficient time for the Transportation Department to arrange special bus service and acquire specialized equipment or staff as called for in the I.E.P.

If transportation service is requested to and/or from a location other than the home address of the student, a Special Needs Bus Application and Transportation Special Request Form (See Appendix) must be sent to the Transportation Department where the request will be evaluated and a decision made as to the feasibility of the request.

ⁱ Revised Date July 1, 2008.
