

## Upload your Video to Teacher Tube

- Login to Teacher Tube
- Click on the Upload Button
- Give your video a title, description, and tag
- Choose the category for your video and click CONTINUE
- Find your video on your computer
  - Remember AVI files are larger than WMV and will take longer to upload.
- Choose Public or Private
- Choose to UPLOAD video.
- When your video is finished uploading you will get a successfully uploaded screen.
- On this screen you can copy and paste the code to "embed your video" and follow the directions below to put it on your Oncourse webpage.
- You can also email your link or add some details to your video.

## Embed your Video into Oncourse from Teacher Tube

- Login to Teacher Tube
- Open "My Account"
- Click on "My Videos"
- Click on the video you would like
- On your video page find the section that says EMBED VIDEO
- Find the box that says "Embeddable w/out Video Search"
- Copy the code from this box.
  - (Highlight/RT click Copy OR Highlight/ CTRL+C)
- Login to Oncourse
- Go to your Oncourse webpage.
- Find the page you would like to insert your video.
- Open the editing box by clicking on the pencil.
- Click on the "Source" button (this will bring up the code for that page)
- Move your cursor to the bottom of the code
- Paste the code from Teacher Tube
  - (RT click Paste OR CTRL+V)
- Click on "Source"
- You will now see a flash symbol in a box.
- Move that box like a picture to where you want it on the page.
- Click Save and Close
- You will now be able to see you video.
