

# OnCourse Lesson Plan Newsletter

September 2008

## Jazz Up Your OnCourse Teacher Website!!

- ♦ **Website Editor**—Edit Website allows you to choose the **New Website** to begin using the new features that OnCourse offers to build a professional and productive website for you and your students.
  - Select **New Website** under **Edit Website** and **Public Website**.
  - Put a check mark in the **Migrate Data** box to import all of the information from your old website to your new website. Click **Save & Close**.
- ♦ **Design Assistant**—The Design Assistant allows you to change your themes and headers.
  - Themes**—Set the color, background, and layout for your webpage.
    - From the tool bar, click **Design Assistant**, then select **Change Theme**.
    - Use the arrows to scroll through the available themes. Click on a theme to see a preview in the lower half window. Click **Save** and **Close** to keep your selected theme.
  - Header**—The header allows you to change the graphic at the top of your webpage.
    - From the tool bar, click **Design Assistant**, then select **Change Header**.
    - From the **Select Category** drop down on the right hand side, "**Choose a Category**" to locate a header that is appropriate for your curriculum. Click **Save and Close** to keep your selected header.
- ♦ **Website Editor**—Click on the **Pencil icon** to edit any section of your website.
  - Move Section Button**—allows you to move your header anywhere within the header space. Print out a user guide to learn more about "jazzing up" your teacher website.

## Matching GLEs in OnCourse with the StoryTown Reading Series

**HINT:** When trying to match up GLEs in OnCourse with the new StoryTown reading series, the last number in the TE matches the last number in OnCourse.

For Example: 2ELA-1-E7-13 in the StoryTown TE matches LA.2.2.13 in the OnCourse LA GLE's tab

2ELA-7-E4-20(a) in the StoryTown TE matches LA.2.7.20.1 in the OnCourse LA GLE's tab
