

Thinking Maps 2.0

New Software is FINALLY here!!

The new improved version of Thinking Maps software has finally arrived and ready for you to download to your classroom and lab computers. **This software works only on Windows XP computers.**

If you have the original version of Thinking Maps on your computer, **you MUST remove it** before installing the new version. To remove software, go to Start > Settings > Control Panel > Add or Remove Programs... click on Thinking Maps and click "Remove."

To install the new Thinking Maps 2.0, your computer must be hooked to the TangiSchools network and you must be logged in as yourself.

1. Go to www.tangischools.org and click the Technology button.
2. Scroll down to the Approved Software Downloads for TPSS Network link... or go directly to www.tangischools.org/dept/tech/software.htm
3. Click on the link "Thinking Maps (Version 2.0)"
4. Follow the prompts on the screen like a normal software installation (Next, Next, etc.)

TPSS has a license to install on any and all computers in our district... so "Go To It!!"

Each school has a new TM 2.0 binder with two original CDs of the software that they can make copies of for home distribution to teachers and students.

If you have any questions or problems, please email vickib@tangischools.org
